An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the drawings :

In Fig. 4, complete the broken line at "node d".

In the claims :

In claim 1, line 4, change "a" to --an internal--;

line 7, change "that, with reference" to --coupled--;

line 12, change "that, with reference" to --coupled--;

line 13, change "of which cycle" to --which--; and

In claim 2, line 2, add --the-- at end of line.

The above changes have been made to render the claims complete and to remedy antecedent basis deficiencies.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Independent claim 1 recites a semiconductor memory device comprising an internal register, an address counter, and a cycle generating circuit for generating a variable refresh cycle based on the number of memory spaces requiring a refresh operation, which the prior art does not teach.
